

TO THE EARTH

and HAPPINESS TO YOU

On the threshold of the new year, when an agonized and crucified world awaits definite results from the conference, it is our earnest wish and prayer that success may ultimately crown the efforts of the men of the nations, to the end that lasting peace may come, that suffering and destruction may cease, that happiness and prosperity may return, and that the blessings of the Divine Creator may be bestowed upon all peoples of the lands and seas of the earth.

Specially to our friends and patrons, and to all citizens of this community, we extend the compliments of the Christmas season, with the hope that the new year may bring you peace of mind, health of body, and success in the affairs of life.

In token of our gratitude for the many favors and uniform courtesy extended to us, we subscribe ourselves your humble debtors and well wishers in all that is upright, just and holy.

May you live happily to grace many new years yet to come:
